## ***CALL FOR PAPERS***

### **Gender & Crime –**

### **Structures, causes and conditions of gender-based violence**

**25<sup>th</sup>-26<sup>th</sup> April 2024**

Dear colleagues,

we hereby cordially invite you to our third edition of the ***Gender & Crime*** conference – in 2024 for the first time in presence! After two successful online conferences, which showed us the great response and interest in gender-specific aspects in criminology and criminal law, the conference will take place next year at the Georg-August-Universität Göttingen.

In the first year, the conference dealt generally with gender aspects in criminal law, criminology and victimology. In 2022, the focus was on the topics of sexual self-determination and gender-based violence. The focus of the upcoming conference will be on the **structures of gender-based violence and its causes and conditions**.

We therefore particularly welcome abstracts on the following topics:

- Structural causes and criminological contexts of gender-specific aspects of crime and victimization in precarious living or working conditions (e.g., homelessness, asylum, prostitution, live-ins)
- Gender-based violence and persecution, especially in the context of war and migration (e.g., sexualized and reproductive violence in armed conflicts, forced marriage, violence against LGBTQIA+)
- manifestations of gender-based violence (e.g., female genital mutilation (FGM/C), intimate partner violence and violence in the family environment, forced abortions, femicides)
- Gender and extremism (images and roles of women in (right-wing) extremism and terrorism, LGBTQIA+ as an enemy image)
- Antifeminism, misogyny, sexism and gender backlash.

We are particularly looking forward to international perspectives on these topics and therefore welcome contributions in English.

The conference will be held on **Thursday, 25<sup>th</sup> April, and Friday, 26<sup>th</sup> April 2024**, as a face-to-face conference at the Georg-August-Universität Göttingen. In addition to a keynote lecture and a panel discussion, current topics and research results will be presented and discussed in various panel sessions. Researchers and practitioners working in this field will be offered opportunities for networking. Following the conference, the publication of a conference volume is planned, in which the lectures and results of the conference will be brought together. Written contributions are expected to be submitted by 31<sup>st</sup> July 2024.

Abstracts for panel contributions can be sent now until **30<sup>th</sup> November 2023** to [genderandcrime@kfn.de](mailto:genderandcrime@kfn.de) (subject: "Abstract Gender & Crime 2024"). The text must not exceed 1,500 characters (including spaces). Abstracts should be sent together with a short CV (max. 2 pages). A decision on the acceptance of contributions will be made by the end of December.

The organizing team is looking forward to your participation!
